Island Fox Population Data

Island fox populations changed dramatically between 1994 and 2000. Since 2000, the population numbers have been changing again, but this time the change is happening more slowly. Graph the population numbers and determine the trends in population size. What do you think is influencing these trends?

ISLAND	1994	1998	2000	2002	2004	2006	2008	2010	Current
San Miguel	450	65	15	22	56	78	270	516	581
Santa Rosa	1780	100	15	32	51	84	122	317	450
Santa Cruz	1495	800	80	62	132	205	736	1302	1205
Santa Catalina	1342	200	165	230	245	420	784	1008	1542
San Clemente	1003	550	500	450	450	400	400	924	1128
San Nicolas	550	550	734	500	500	400	725	500	500

For detailed information on why the populations numbers changed the way they did, students can explore the Friends of the Island Fox website at www.islandfox.org
